

EQACC SOLAR

Boston Inverter Energy Storage Equipment Company

Overview

What is a battery inverter?

Battery inverter for utility scale application directed at AC-coupled energy storage systems. MV turnkey solution up to 7.65 MVA, with all the elements integrated on a full skid, equipped with one or two INGECON SUN STORAGE 3Power C Series inverters.

What are advanced energy storage solutions?

Development of advanced energy storage solutions. These solutions, based on power and control electronics, meet the energy manageability needs with regard to generation, distribution and consumption. Integration of battery storage in renewable energy generation plants (PV, wind power, marine, etc.).

Which battery inverter is best for commercial self-consumption installations?

Ideal solution for commercial self-consumption installations. Three-phase battery inverter with 100 kW of rated power for industrial self-consumption systems. Ingeteam has achieved the EcoVadis Gold Medal, a recognition that places it among the world's leading companies in sustainability.

Does CPS offer a battery storage inverter skid?

The battery storage inverter skid is available in two standardized configurations: 2MW and 2.4MW, achieved by incorporating 10 and 12 units of CPS's 200kW string PCS inverters (CPS ECB200KTL/US-800), respectively. The battery storage inverter skid is compatible with CPS's 5 MWh liquid-cooling BESS (CPS ES-5016KWH-US).
