

EQACC SOLAR

Boston self-built solar system

Overview

Why should you choose Boston Solar for your residential installation?

When you choose Boston Solar for your residential solar installation, you're partnering with local experts who understand the unique challenges and opportunities of solar in Massachusetts. Our custom-designed systems are built to withstand harsh winters and maximize energy production year-round.

What is the Boston Solar Company?

The Boston Solar Company is a Massachusetts-based solar company founded in 2011 that offers solar services to residential, commercial, and non-profit entities. It has completed more than 1,800 solar installations and has become a major provider of solar services in the New England area.

Is Massachusetts a good place to install solar?

Massachusetts is a top state for solar adoption, thanks to generous state incentives, net metering programs, and a commitment to renewable energy. By choosing Boston Solar for your residential installation, you're partnering with local experts who understand the unique challenges and opportunities of solar in Massachusetts.

Is residential solar a smart investment for Massachusetts homeowners?

Residential solar is a smart investment for Massachusetts homeowners. It helps lower your carbon footprint, protect against rising utility costs, and increase your home's value. Let Boston Solar guide you towards energy independence and a brighter, more sustainable future.
