

**EQACC SOLAR**

# **Brasilia lithium energy storage power price**

## Overview

---

The average upfront cost for lithium-ion systems in Brasilia ranges from \$280-\$420/kWh, but multiple factors influence final pricing. Did You Know?

Will Brazil's lithium battery market grow in 2030?

Sophia Costa, head of new business at Holu Solar said market analysts expect Brazil's lithium battery sector to grow at a CAGR of 20% to 30% through 2030. "We have observed that the battery energy storage system (BESS) market is booming globally with the use of lithium-ion batteries becoming a reality in many parts of the world," said Costa.

Are energy storage products coming to Brazil?

Holu's Costa observed batteries were prominent during the Intersolar South America trade show held in São Paulo at the end of August 2024. She added, hundreds of manufacturers are bringing energy storage products to Brazil.

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Will Brazil's energy auction improve power grid reliability?

Interest in the auction has been expressed by power companies such as Portugal's EDP and Brazil's ISA Energia. The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar. US Tariffs are shifting - will you react or anticipate?
