Swedish engineering firm Sweco has won the contract to design one of Europe's largest battery parks which will be built in Belgium, the company confirmed on Monday.

What is the largest energy storage project in Europe?

A first flagship energy storage project in Belgium After commissioning four battery parks in France offering total energy storage capacity of 130 MWh, this project will be the Company's largest battery installation in Europe.

Will Sweco design a Battery Park for giga storage Belgium?

Sweco will design one of continental Europe's largest battery parks, Green Turtle, for the energy storage company GIGA Storage Belgium. This facility will have a storage capacity of 2,800 MWh of electricity.

How much power will Belgium's new solar park have?

The completed park will have a power capacity of 700 MW and a storage capacity of 2,800 MWh, enough to power 385,000 households for a year, according to Sweco. The facility will provide stored renewable energy during periods of low solar and wind energy production, reducing Belgium's reliance on gas power plants.
