# **Budapest New Energy Storage Policy**

## Overview

---

How will Hungary's subsidy scheme affect battery energy storage?

The Hungary panel discussion at the event. Image: Solar Media. Hungary's subsidy scheme for energy storage will drive huge growth in battery energy storage system (BESS) deployments over the next few years.

Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

Will Hungary support the installation of new electricity storage facilities?

Hungary notified to the Commission, under the Temporary Crisis and Transition Framework, a Hungarian scheme to support the installation of at least 800 MW/1600 MWh of new electricity storage facilities.

Is Hungary a good market for energy storage subsidies?

Moderator Nikita Chandrashekhar, director at advisory Augusta & Co, said the scheme made Hungary an attractive market: "It is probably one of the most advanced subsidies schemes to bring energy storage forward. So from a revenue perspective, perhaps, unlike some other markets, the business case in Hungary seems pretty well developed."

## Budapest New Energy Storage Policy

### Hungary: EU approves EUR1.1 billion state aid ...

The European Commission has approved a EUR1.1 billion scheme from the government of Hungary to support large-scale energy ...

### Hungary: 'advanced' subsidy scheme to drive BESS market

The Hungary panel discussion at the event. Image: Solar Media. Hungary's subsidy scheme for energy storage will drive huge growth in battery energy storage system ...

### State aid: Commission approves EUR1.1 billion Hungarian ...

The Hungarian measure Hungary notified to the Commission, under the Temporary Crisis and Transition Framework, a Hungarian scheme to support the installation of at least 800 ...

### Charging ahead: Hungary's newly introduced rules fuel ...

Historically, Hungary's regulatory framework did not provide clear guidelines for the integration of co-located BESS projects. This lack of specific regulation created uncertainty for ...

### **Hungary awards funding for 440 MW of storage**

The Hungarian government has earmarked HUF 62 billion (\$169 million) for grid-scale energy storage projects in a bid to facilitate further deployment of renewable energy ...

### **Government Announces Support for a Residential Energy Storage ...**

11 hours ago The government is announcing a residential energy storage program with a budget of HUF 100 billion (EUR 261 million), the Minister heading the Prime Minister's Office said on ...

### **ERRA Regulatory Story of the Quarter: The ...**

In early 2024, the Hungarian government held the battery storage tender, which aimed to enhance the development of large, grid-integrated

battery ...

## **National Battery Industry Strategy 2030**

In a separate chapter, the National Energy Strategy discusses the key issues of energy innovation and emphasizes the promotion of new solutions that ensure the energy ...
