Business model of flow batteries

Overview

What is the global flow battery market size?

The global flow battery market size was valued at USD 328.1 million in 2022. This market is anticipated to grow at a compound annual growth rate (CAGR) of 22.6% from 2023 to 2030, primarily driven by the rising demand for energy storage systems globally.

What is the expected CAGR of the flow battery market?

The global flow battery market size was valued at USD 328.1 million in 2022 and is anticipated to grow at a compound annual growth rate (CAGR) of 22.6% from 2023 to 2030. The rising demand for energy storage systems globally is the primary factor for market growth.

What is a flow battery?

A flow battery is a rechargeable energy storage system where an electrolyte flows through one or multiple electrochemical cells originating from one or more reservoirs or tanks. These batteries are used exclusively in stationery markets and are typically aqueous-based.

Are flow batteries the future of energy storage?

Flow batteries are positioned as a prime option for long-duration energy storage, addressing the challenge of intermittency in renewable energy sources like wind and solar. Governments around the world are advocating for increased adoption of these energy sources.

Business model of flow batteries

Flow Battery Market Size & Share , Industry Report, 2030

Flow battery market size was valued at USD 491.5 million in 2024, is projected to reach USD 1,675.54 million by 2030, at a CAGR of 22.8% from 2025 to 2030.
