Canada s latest 5G base station

Overview

What is the global 5G base station market size?

The global 5G base station market size was estimated at USD 33,472.5 million in 2023 and is projected to reach USD 253,624.3 million by 2030, growing at a CAGR of 33.5% from 2024 to 2030. The surging demand for high-speed connectivity is a significant factor driving the growth of the 5G base station market.

How will Europe's 5G base station market evolve from 2024 to 2030?

The Europe 5G base station market is poised for significant growth from 2024 to 2030. The European regulatory environment supports 5G deployment, with policies designed to facilitate the rollout of 5G infrastructure. This includes streamlined permitting processes, clear spectrum allocation strategies, and efforts to reduce regulatory barriers.

Why do we need a 5G base station?

As the number of IoT devices continues to grow, particularly in sectors such as healthcare, agriculture, transportation, and manufacturing, there is an increasing need for a robust and expansive 5G network. This demand is driving the installation of more 5G base stations to ensure that IoT systems can operate efficiently and reliably.

How can 5G help a Canadian business?

“5G connectivity has the power to radically transform businesses and improve the lives of both employees and customers,” says Jeanette Irekvist, President, Ericsson Canada. “We are proud to bring our innovative 5G solutions to Canadian businesses of all sectors and sizes.
