

EQACC SOLAR

Canberra Solar Electric System

Overview

Is Canberra a good place to install solar panels?

Canberra averages around 2,600 sunshine hours every year (Source: Bureau of Meteorology), making it perfect for solar power. Rising energy costs mean solar panels help you lock in your own savings. Meta Electrical is your local Clean Energy Council Accredited Installer. We help you cut your bills and keep your energy local.

What services does solar panel Canberra offer?

We are glad to offer a full range of solar panel Canberra services. From design through execution and continuous post-installation support for solar power systems. Our professional and qualified specialists give you a cost-effective, eco-friendly, responsible, and successful path to relying on renewable energy for your Canberra property.

Who are Canberra's best solar panel installers?

Updated 19 August 2025 | By John Murtagh Huglo Solar, one of Canberra's most recommended solar panel installers. Photo: Thomas Lucraft. If you're a homeowner tired of paying thousands of dollars a year for power, chances are you've thought about adding solar panels to your roof.

How much energy does a solar system save in Canberra?

In Canberra, the savings from installing a solar system depend on its size and your energy consumption. Here's a breakdown of potential savings for different system sizes: Estimated annual output: Approximately 6,643 kWh.
