

**EQACC SOLAR**

# **Cape Town Island solar Air Conditioning**

## Overview

---

Why should you choose solar-powered air conditioning in Cape Town?

Solar-powered air conditioning reduces your carbon footprint. For eco-conscious Cape Town households and businesses, this is a strong motivator. A home or office equipped with solar and energy-efficient climate control is more attractive to buyers and tenants. [Cape Town Airconditioning 4. Practical Challenges to Consider](#).

Why do aircon & solar make a difference in Cape Town?

Here's why the combination of aircon + solar makes so much sense locally: Cape Town gets an average of 3,100 hours of sunshine per year — one of the highest globally. This makes solar highly effective, especially for running aircons during summer's peak heat.

What are the benefits of solar installation in Cape Town?

Whether you are looking to lower your energy bills or gain independence from the national grid, solar energy provides a range of benefits in Cape Town's energy landscape. It's important to fully understand the costs of solar installation in Cape Town. [Cost Savings: Reduce or eliminate electricity bills by harnessing the power of the sun.](#)

How do I choose a solar panel for Cape Town?

When choosing solar panels, it's important to consider efficiency ratings, durability, and suitability for Cape Town's climate. Likewise, selecting the right solar battery can determine how well your system stores excess energy for nighttime or backup use. ([See our Best Solar Panels for Cape Town's Climate: A Detailed Guide for more details.](#))
