# Cape Town Valley Power Storage Equipment

## Overview

---

Is Cape Town launching a battery energy storage system?

The City of Cape Town will, in the third quarter of this year, release an RFP for 100MW of battery energy storage systems in an effort to bolster energy security. Is Eskom launching a battery energy storage system in South Africa?

.

Where is the largest battery energy storage system in South Africa?

Eskom has unveiled the first of its kind largest Battery Energy Storage System (BESS) project in South Africa and the African continent. The Hex BESS site at Worcester in the Western Cape was officially opened yesterday. What would a large-scale battery energy storage system mean for a municipality?

.

When will Cape Verde's energy storage centre be operational?

During the presentation of the project, Cape Verde's National Director for Industry, Trade and Energy, Rito Évora, announced that the energy storage centre is scheduled to be operational by 2030, with the aim of injecting 7% of renewable energy into the national public grid and 18% into that of the island of Santiago.

Why is battery storage important in South Africa?

In South Africa, battery storage is increasingly seen as a key pillar to help provide grid stability and integrate variable renewables given its ageing coal-fired power fleet and grid.
