# **China solar power to battery in Ghana**

## Overview

---

Can solar energy be used in Ghana?

wer (CSP) and geothermal energy. A study conducted under Solar and Wind Energy Resource Assessment (SWERA) in 2002 indicated that direct solar radiation is limited to the upper western part of the country. Further studies are required to fully establish the resource potential for application. See Appendix 1F. At present, Ghana is not known.

Where in Ghana is solar power installed?

ned for sanitation purposes only. Other systems have been installed at Ghana Oil Palm Development Company (GOPDC) and HPW Fresh and Dry (at Adeiso in the Eastern Region), which also include units for power generation. 1.5.2 Decentralized Renewable Energy Systems At the end of 2015, more than 10 MWp of stand-alone solar PV systems.

What is the Ghana & China project?

The project addresses Ghana's need to increase universal energy access. It promotes the production of renewable energy technologies in Ghana with a strong focus on private sector development and inclusion. In China, the project supports the review and updating of South-South Cooperation policies and guidelines.

How are solar PV systems used in Ghana?

tems have been installed in Ghana. These are being used for inter alia, lighting, water pumping, powering of computers for the teaching and learning of ICT and vaccine refrigeration across the country. Over 70,000 solar lanterns have been disseminated. Stand-alone solar PV systems are market driven in Ghana, spurred by government and donor support.
