Comparison of 20kW Solar Containerized Solar Products in Berlin

Overview

How many solar energy storage systems have been evaluated in 2024?

February 11 companies have had their results published in the 2024 energy storage inspection, stating the product names. 20 solar energy storage systems from a total of 14 manufacturers have been evaluated by the HTW Berlin University of Applied Sciences in the latest edition of its storage test.

Do solar panels contribute to Germany's Power Mix?

Solar arrays can contribute a much greater share to the German power mix during particularly sunny times. In July 2024, Germany recorded its monthly record solar power output level to date of 10.1 terawatt hours (TWh) – despite sunshine levels being lower than the previous year.

Where can I contact HTW Berlin for a solar storage inspection 2024?

Interested manufacturers can contact the Solar Storage Systems research group at HTW Berlin directly. The Energy Storage Inspection 2024 was developed as part of the „Perform“ project, which is funded by the Federal Ministry of Economic Affairs and Climate Action (BMWK).

Could Germany be a better place for solar power?

Beyond increasing the rollout of rooftop solar arrays, Germany could also increase the space that is suitable for the renewable power technology by dedicating more farm land for so-called agri PV, researchers from Forschungszentrum Jülich and RWTH Aachen University found.
