

**EQACC SOLAR**

# **Copenhagen Island Energy Storage Project**

100KWH/215KWH

LIQUID/AIR COOLING

IP54/IP55

BATTERY 6000 CYCLES

## Overview

---

Does European energy have a battery storage project in Denmark?

European Energy breaks ground on battery storage in Denmark together with Kragerup Estate. Project to provide operational experience for European Energy in integration of battery solutions. Copenhagen, Denmark, 20th of January 2025 - European Energy has started on its first large-scale battery storage project.

What is a Danish Energy Island?

The Danish Energy Agency is leading the project and will also be present all the way inside the engine room once the two islands become a reality. The energy islands mark the beginning of a new era for the generation of energy from offshore wind, aimed at creating a green energy supply for Danish and foreign electricity grids.

Who will supply Copenhagen Energy's 132 MWh Everspring battery energy storage system?

Copenhagen Energy's 132 MWh Everspring battery energy storage system (BESS) portfolio will be supplied by Huawei Digital Power. Image: Huawei Digital Power. Copenhagen Energy's 132 MWh Everspring battery energy storage system (BESS) portfolio will source its technology from Huawei Digital Power.

Will Denmark build a new energy island?

Denmark will construct one of the world's first energy islands, utilizing its abundant wind energy resources in the North and Baltic Seas. These energy islands will form a crucial part of a hub-and-spoke grid, facilitating smart electricity distribution between regions across the two seas.
