

**EQACC SOLAR**

# **Corrosion-resistant folding containers for mountainous areas in North Macedonia**

## Overview

---

The introduction of stimuli-responsive micron-nano containers endows traditional coatings with intelligent self-healing functions. Recently, the research on stimuli-responsive micron-nano containers has attracted much attention.

Which structure types of Micron-nano containers are used for corrosion prevention?

Spherical containers and BTA inhibitors (Fig. 1 b), lamellar containers and PDA inhibitors (Fig. 1 c), tubular containers and 8-HQ inhibitors (Fig. 1 d) are respectively used as examples to demonstrate the corrosion prevention mechanism of different structure types of micron-nano containers in coatings. Fig. 1.

How can hmzss be used for anticorrosion study of carbon steel?

They prepared hollow mesoporous zirconia (HMZSSs) by sol-gel technology. Using L-CAR as a green and effective corrosion inhibitor in HMZSSs shell, the nano container was added to waterborne EP coating, and smart anticorrosion coatings were constructed for the anticorrosion study of carbon steel.

Why is micron-Nano a good choice for anti-corrosion coatings?

The organic combination of the stimuli-responsive micron-nano container and the anti-corrosion coating can effectively make up for the negative protection property of the coating, to obtain self-healing function and prolongate the service life of the coating.

Are stimuli-responsive micron-nano containers a self-healing anticorrosion coating?

The introduction of stimuli-responsive micron-nano containers endows traditional coatings with intelligent self-healing functions. Recently, the research on stimuli-responsive micron-nano containers has attracted much attention in the field of self-healing anticorrosion coatings.

## Corrosion-resistant folding containers for mountainous areas in Nor

### Mobile Foldable Prefabricated Corrosion-Resistant and Durable X-fold

Mobile Foldable Prefabricated Corrosion-Resistant and Durable X-fold Flat Packaging Containers for Offices Product specifications External dimension (mm) 5800 L \* 2500 W \* 2380 H MM ...
