## Overview

---

What is a seafold container made of?

The SeaFold 40' is built using the highest quality stainless-steel components and is primarily made up of Corten -A steel, making the Container more resistant to corrosion and weathering. What is the life expectancy of a SeaFold container?

.

What is a foldable container?

Such foldable containers are compatible with the normal ISO-approved TEU or FEU and are strong enough to be placed anywhere on a shipboard stack. Any number of containers from 2 to 5, can be folded and stacked in such a way to form a regular container size for transport or storage.

Do Empty shipping containers clog roads and ports?

Empty shipping containers clog roads and ports. Staxxon's foldable containers -- which can be stacked in bundles -- are one solution to this.

When did foldable shipping containers come to light?

Business establishments and freight and transport operators got so used to rigid shipping box containers that foldable containers never came to light until about 2008. Imagine flat-packing your empty shipping containers and stacking them when not in use or during transportation.

## Foldable shipping containers an answer to port congestion?

Your Professional background?What Causes 'Empty Running'?Who Inspires You?Empty containers clog roads and ship terminals, causing port congestion and leaving little space to unload ships. This then forces many ships to wait offshore, wasting resources and slowing the supply chain to a crawl. The problem disappears only as the ships sail away.See more on supplychaindigital
