# **Customized DC Solar Container**

## Overview

---

Why do you need a solar container?

Deploy power in hoursPerfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What is a containerized solar microgrid?

SWT's containerized solar microgrids offer a clean, dependable, and cost-effective solution to the telecom sector. For agricultural operations to run efficiently and affordably, energy is a must. The demand for energy resilience in agribusiness is greater than ever as grid interruptions become the new norm.

What is a SWT solar container?

SWT solar container uses PV and battery to supply power to the load, and diesel generator as a backup power supply to supply power to the load when PV and battery are insufficient. Designed to provide flexible options that are configured according to your power needs. Scalable and reproducible, ensuring optimal performance and efficiency.
