Customs exports of solar modules in the first quarter

Overview

How did Indian solar module and cell exports perform in Q1?

Indian solar module and cell exports increased 26.1% quarter-over-quarter (QoQ) to \$267.6 million (~₹23.1 billion) in the first quarter (Q1) of 2025 from \$212.2 million (~₹17.92 billion), according to recent data published by the Department of Commerce.

How did US solar panel imports perform in the first three months?

Source: jgroup/iStock/Getty Images Plus via Getty Images. US solar panel imports remained robust in the first three months of 2024, coming in just short of the prior quarter's record 15 GW and notching a 13.8% gain from a year ago, according to the S&P Global Market Intelligence Global Trade Analytics Suite.

What impacted solar module imports in QOQ?

Solar modules accounted for 62.4% of the quarter's solar imports, while solar cells accounted for the remaining 37.6%. Module and cell imports increased 80.2% QoQ from \$723.4 million (~₹61.1). The reimposition of the Approved List of Models and Manufacturers (ALMM) order significantly curtailed solar module imports into India.

How much solar energy did India import in Q1 2025?

India imported \$1.3 billion (~₹112.8 billion) worth of solar cells and modules in Q1 2025, representing a 35.1% year-over-year (YoY) decrease from \$2 billion (~₹166.9 billion). Solar modules accounted for 62.4% of the quarter's solar imports, while solar cells accounted for the remaining 37.6%.
