

EQACC SOLAR

Cyprus outdoor communication battery cabinet transfer

Overview

What is a telecom battery backup system?

A telecom battery backup system is a comprehensive portfolio of energy storage batteries used as backup power for base stations to ensure a reliable and stable power supply. As we are entering the 5G era and the energy consumption of 5G base stations has been substantially increasing, this system is playing a more significant role than ever before.

What is a CyTech power cabinet?

The innovative power cabinet by Cytech is designed to guarantee uninterrupted energy for modern communication systems worldwide. Combining solar, mains, and diesel power sources, it provides a flexible, intelligent hybrid solution that adapts to different energy environments.

Should telecommunication operators invest in a telecom battery backup system?

Investing in a telecom battery backup system is always one of the priorities for telecommunication operators in the 5G era. Sunwoda 48V telecom batteries have a capacity covering 50Ah-150Ah, which can easily meet the power backup needs of macro and micro base stations.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.
