Democratic Congo Communications deploys 5g base stations

Overview

Is Vodacom DRC ready for 5G?

Khalil Al Americani, CEO of Vodacom DRC, has announced the company is currently conducting 5G tests in the country. The trial is being carried out under the supervision of the DRC telecom regulatory authority, ARPTC. These tests aim to ensure the telecom operator's readiness for deploying ultra-high-speed internet in the DRC.

Which telco operates in the Democratic Republic of Congo?

In DRC, Orange has more than 15 million subscribers, and more than 3,400 sites. South African-based Vodacom, which is a subsidiary of UK telco Vodafone, operates in several other African markets, including the Democratic Republic of Congo, Egypt, Ethiopia, Kenya, Lesotho, Mozambique, and Tanzania.

Did Vodacom & Orange conduct 5G tests in DRC in 2023?

Vodacom and Orange carried out 5G tests in DRC in 2023. Subscribe to The Telecoms & Connectivity Channel for regular news round-ups, market reports, and more.

What is orange & Vodacom doing in Africa?

Orange and Vodacom have joined hands to form, a first of its kind, rural towerco partnership in Africa. Through this partnership, the companies will collaborate to build, own, and operate solar-powered mobile base stations in underserved areas of the Democratic Republic of Congo (DRC).
