Density of outdoor communication battery cabinets in Belgrade

Overview

What kind of batteries can be stored in a rack mount cabinet?

All-in-one design, store the leading brands of 19" rack mount type lithium batteries, inverters and controllers. DC48V powered air conditioner, heat exchanger or TEC coolers are optional, which can cool down the devices installed inside the cabinet. Battery Storage Space based on the battery specification.

Why do you need an outdoor Battery Cabinet?

The cabinet is designed specifically to protect it from human damage, water, dust and other damages. Climate controlled products such as air conditioners, heat exchanger, or TEC coolers are installed on outdoor battery cabinet for keeping a stable temperature inside cabinet so as to increase service life and stability of battery.

What is a battery cabinet made of?

The cabinets are made of galvanized steel or aluminium, making them easy to position and providing a long service life. A slide-in racking system allows for easy installation of 19" rackmount style battery modules along with rain protected vents on both sides and on top for passive ventilation.

What is a solar engery Battery Cabinet?

The solar engery battery cabinet was designed for battery installations, due to a cabinet of this design's scarce availability that was suitable for a variety of lithium-ion batteries. The solar battery equipment cabinets are made specifically for the solar industry with an aim to make installations safer and easier for consumers.
