

**EQACC SOLAR**

# **Do Czech solar projects have energy storage**

## Overview

---

In an announcement released on March 7, 2025, the executive arm of the European Union said that the Czech scheme will support the installation of at least 1.5 GWh of new electricity storage facilities. Are there any large-scale electricity storage projects in the Czech Republic?

There are no other larger-scale electricity storage projects currently being developed in the Czech Republic. However, the Czech government provides subsidies to household projects consisting of photovoltaic panels with electricity storage systems.

Is there a future for energy storage in the Czech Republic?

Despite the ongoing discussions, there is no significant development in the area of energy storage. In 2015, the Czech Government adopted the National Action Plan for Smart Grids ("NAPSG") prepared by the Ministry of Industry and Trade under principles set out in the update of the State Energy Concept, which was also introduced in 2015.

Does the Czech government provide subsidies for electricity storage?

However, the Czech government provides subsidies to household projects consisting of photovoltaic panels with electricity storage systems. Batteries and thermal energy storage are the two most commonly used methods of electricity storage for households in the Czech Republic. 2.

How does the Czech government subsidise photovoltaic panels?

The Czech government subsidises the installation of photovoltaic panels located on domestic properties producing energy for their own consumption and the purchase of co-located energy storage solutions. These subsidies are provided under the "New Green Savings Programme" administered by the State Environmental Fund.

## Do Czech solar projects have energy storage

### Czech Republic Energy Storage

Pumped-storage hydroelectricity Bulk energy storage is currently dominated by hydroelectric dams, both conventional as well as pumped. There are six localities considered ...

### Czech Republic's 1500MWh Energy Storage Project: A Game ...

The Czech Republic is taking a significant step towards a more resilient and sustainable energy future! With EUR279 million in EU funding approved for 1500MWh of new ...

### Czech Republic's 1500MWh Energy Storage ...

The Czech Republic is taking a significant step towards a more resilient and sustainable energy future! With EUR279 million in EU ...

### Czechia introduces new licensing rules for energy storage

An amendment to Czechia's Energy Act has raised the threshold for mandatory electricity generation licences from 50 kW to 100 kW for solar installations generating power ...

### **Czechia introduces new licensing rules for ...**

An amendment to Czechia's Energy Act has raised the threshold for mandatory electricity generation licences from 50 kW to 100 ...

### **Energy Storage in the Booming Czech Market ...**

What makes the Czech Republic an interesting country for renewable energy projects? The timing is right in the Czech Republic to ...

### **Czechia Policy Doubles Solar License Limit, Accelerating Local Energy**

Briefing Czechia has significantly reformed its Energy Act, doubling the mandatory licensing threshold for small-scale solar and simplifying rules for co-

located battery storage. ...
