Does South Sudan need base stations for communication

Overview

Does Sudan have a radio station?

The major radio station of the Sudan National Broadcasting Corporation is in Omdurman, with a regional station in Juba for the south. Some foreign shortwave radio broadcasts are available, and a private FM radio station continues to operate. The government restricts UN radio.

Is South Sudan lagging behind in telecommunications development?

Compared to the United States, South Sudan is massively lagging behind in the development of telecommunications. Under the country code +211, there were a total of 6.17 million connections in 2023. Among them were 6.17 million mobile phones, which corresponds to an average of 0.54 per person. In the US, this figure is 1.2 mobile phones per person.

Who regulates telecommunication in South Sudan?

The National Communication Authority regulates telecommunication, broadcasting, spectrum, and type approval in South Sudan, ensuring nationwide use of approved services and equipment. Protect Yourself: See What's New in Cyber Security!.

Who regulates the radio frequency spectrum in South Sudan?

The National Communications Authority (NCA) is responsible for the management and regulation of the radio frequency spectrum in South Sudan. The National Communications Frequency Regulations, 2016, outline the conditions, requirements, and procedures for obtaining and maintaining a frequency spectrum license.
