

## EQACC SOLAR

# Does the EK inverter have 38kw

## Overview

---

power is 11 ~ 100kW, wide MPPT range and input voltage are supported. It is a high-quality, high-reliability product with green certification technology. What is multi-string transformerless solar inverter (EK-11 ek-100)?

Multi-string Transformerless solar inverters (EK-11 ~ EK-100) are suitable for commercial solar power generation market and public institution installment project. Rated output power is 11 ~ 100kW, wide MPPT range and input voltage are supported. It is a high-quality, high-reliability product with green certification technology.

Can a 38kw solar array be put on an inverter?

A 38kW solar array can be put with an inverter with an AC output of 28.50kW. What you "can" do is not what you "should" do. All inverters have different specs. And based on those specs you might be able to put a LOT more panels on than the rated inverter capacity. That does not mean you should.

How big is a 38kw solar power system?

A 38kW system using 370W panels will require about 180.7 square meters of roof to be installed. Each 370W panel measures about 1.75m x 1m. 38kW solar power systems are mostly suitable for SMEs with medium energy needs. This size of solar power system is classed as "Commercial/Industrial".

Do I need a 38kw Solar System?

Whether or not you need a 38kW solar system will depend on many things. If you are a Commercial/Industrial customer and you use between 151.9kWhs and 229.4kWhs then a 38kW solar system could be a good choice to help reduce power bill costs. Solar Proof Quotes offer a quick and easy way to get 38kW solar system quotes.

## 38kW Solar System Information - Facts & Figures

38Kw Solar System Pricing  
How Much Does A 38Kw System Cost?  
Finance Repayments on A 38Kw Solar Power System  
The cost of 38kW solar power systems varies. On the lower end, you might expect to get Chinese inverters such as Sungrow, Growatt, JFY, Goodwe etc. and Chinese (lower-tier) panels such as Hannover, Munsterland, ZN Shine etc. You might expect to pay \$43,700.00 for such a system. On the higher end of the spectrum you might be looking at a premium, Eu See more on [quotes.solarproof.com](https://quotes.solarproof.com) or [egeoforum.pl](https://egeoforum.pl)
