

EQACC SOLAR

Dubai Energy Storage Mobile Charging Station

Overview

How mobile EV chargers work in Dubai?

With our fleet of mobile EV chargers, we can deliver power to you anywhere in Dubai, 24/7, with our fleet storing 1000+ kWh. At Charger, our mission is to improve the infrastructure of UAE's EV Charging landscape. We offer DC Fast Charging technology, compatible with all types of charging inputs for any EV.

How a mobile charging station works in UAE?

Our mobile charging stations bring the power source directly to you, to address the diverse needs of the entire transportation ecosystem in UAE, with just a tap of your phone you will have two ways of charging your EV. By incorporating bio-diesel solutions to our fleet we ensure a holistic approach to sustainable transportation.

Where can I find charger's charging stations in Dubai?

To easily locate Charger's charging stations in Dubai, we recommend checking our website or using the Charger mobile app. These platforms provide real-time information on the availability, location, and details of our charging stations, ensuring a seamless experience for EV users in Dubai.

How many EV charging stations are there in Dubai?

As part of the "EV Green Charger" initiative, around 300 charging stations for electric vehicles have been installed in various locations in Dubai such as Government Departments, Real Estate Developers, airports, petrol stations, shopping malls, some clinics, hospitals, commercial offices and residential complexes.
