Dubai builds 20GWh solar container battery project worth 7.5 billion

Overview

Why is UAE launching a solar power and battery storage project?

The launch of the solar power and battery storage project marks a pivotal moment in the clean energy transformation, allowing renewable energy to be dispatched 24 hours a day, seven days a week, reaffirming the UAE's position as a global pioneer in renewable energy deployment.

Why is the United Arab Emirates planning a \$6 billion solar project?

(Bloomberg) — The United Arab Emirates is planning a \$6 billion mega solar and battery project to provide uninterrupted power supply as it targets a rapid boost in clean energy. Subscribe now to read the latest news in your city and across Canada. Exclusive articles from Barbara Shecter, Joe O'Connor, Gabriel Friedman, and others.

What is the largest solar energy storage system in the world?

Delivering up to 1 gigawatt of baseload power every day generated from renewable energy, the UAE's latest project will be the largest solar and battery energy storage system in the world.

How much does a solar project cost in Dubai?

The solar project will be commissioned in 2022 and is bound to offer the lowest solar energy tariff—AED4.97 fils/kWh (US1.35 cents/kWh) all over the world. As of now, Dubai managed to achieve an installed capacity of more than 1 GW, most of which comes from Phase I, II, and III of MBR solar park.
