Dublin Power Plant 5G Base Station

Overview

Will Microsoft Build a gas power plant for Dublin data center?

Microsoft has been given permission to build a 170MW gas power plant for its Dublin data center development, according to reports. The cloud giant applied in December to build a gas power plant for its €900 million Dublin data center campus which is in development at Grange Castle, according to a report from Business Post.

Will Digital Realty build a gas power plant in Dublin?

Digital Realty is set to build a gas power plant to supply energy to its data center in Grange Castle Business Park in Dublin, Ireland. The 9MW DUB4 data center cost Digital Realty around €100 million (\$117.3m) to construct, but was denied a grid connection despite two appeals from the company, as reported by the Business Post Ireland (BP).

Is cloud giant building a gas power plant in Dublin?

The cloud giant applied in December to build a gas power plant for its €900 million Dublin data center campus which is in development at Grange Castle, according to a report from Business Post. The same site now reports that the application has been approved.

Will Dublin have a gas-only data center?

In Dublin, a campus of three data centers has been proposed which would simply connect to the gas grid, however, Eamon Ryan has previously (in late 2022) announced plans to prevent Gas Networks Ireland from giving data centers a gas-only connection.
