Dushanbe Base Station Power Management

Standard 20ft containers

Standard 40ft containers

Overview

What is Dushanbe 2 power station?

Dushanbe-2 power station is the only coal-fired plant in Tajikistan and one of the two thermal power plants, the other one being the gas-fired Dushanbe-1 power station. The construction of the first stage of the Dushanbe-2 CHPP (2 x 50 MW) began in November 2012 after signing of an interstate agreement between Tajikistan and China.

Is Dushanbe 2 a coal-fired power plant in Tajikistan?

Project-level coal details Dushanbe-2 power station is the only coal-fired plant in Tajikistan and one of the two thermal power plants, the other one being the gas-fired Dushanbe-1 power station.

How to reduce power-intensive base stations?

To address the issue of power-intensive base stations, proposed a combined approach involving base station sleep and spectrum allocation. This approach aims to discover the most efficient operating state and spectrum allocation for SBS to minimize power consumption and network disturbance.

When did the Dushanbe 2 CHPP start?

The construction of the first stage of the Dushanbe-2 CHPP (2 x 50 MW) began in November 2012 after signing of an interstate agreement between Tajikistan and China. The new units were commissioned in 2014.
