EMS Standards for the Tbilisi Base Station Room

Overview

What makes a good EMS station design?

Proper storage and easy accessibility of medical equipment are vital in EMS stations. Design solutions include modular storage systems that can be easily adjusted to accommodate different types and sizes of equipment. Achieving hygienic and sterile environments is a cornerstone of EMS station design.

Do EMS stations need a specific space?

Carve out specific spaces for specific uses Of course any EMS station needs adequate sleeping quarters, bathroom facilities and locker/changing rooms for both men and women – but consider what other activities happen at your station that you may not currently have a specific place for.

How have fire and EMS station designs changed over the past decade?

Fire and EMS station designs have changed over the past decades. They are being increasingly recognized as specialized facilities with their own specific design approaches. Design and facility features differ among fire stations, EMS stations, and other types of facilities based on a variety of factors, including:
The role of the station.

Should EMS be compatible with a local hospital?

For EMS service, it may also be important to consult with the local hospital for compatibility between the department and hospitals to enhance the responsiveness of both facilities. If the station is permanently staffed, then station occupant comforts should be addressed.

Provide Spaces to Promote Rest with

Individual Dorms, Safe Sleep Room
Look For Energy Efficiency When Choosing Appliances
Carve Out Specific Spaces For Specific Uses
Reconsider Your Alarms and Lighting, Especially at Night
Make Physical Fitness A Priority
Plan Ahead For Your Power Needs
Design Ambulance Bay Doors For Safety and Speed
Ventilate The Ambulance Bay
Build in Disinfection Capabilities
Provide Secure Drug Storage & Inventory Management
Traditionally, stations have had communal dormitories where everyone sleeps. Given different sleep schedules and habits - and snoring - those days are gone, and individual rooms are a must, says Rodriguez. This allows each crew member more control over their environment for better sleep. "One of the things that oftent...
