

EQACC SOLAR

East Asia Family solar Energy Storage Project

 **TAX FREE**    

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The image shows a white rectangular Energy Storage System unit with a green horizontal stripe. The text 'ENERGY STORAGE SYSTEM' is printed on the front panel. The unit has a grey vertical panel on the left with a vented area. On the right side, there are several small indicator lights and a circular access panel.

Overview

Why did Energy Storage Summit Asia move from Singapore to Manila?

Returning for its third edition in 2025, the Energy Storage Summit Asia relocated from Singapore to Manila, in the Philippines. This shift reflects the country's emergence as a leader in energy storage deployment following the inaugural Green Energy Auction 4- the first auction to integrate Renewable Energy and Energy Storage Systems (IRESS).

Are solar energy projects a green investment in South-East Asia?

SINGAPORE - Investors are most drawn to solar energy projects for green investments in South-east Asia, according to a report released on May 6. More than 30 per cent of 2024's green investments in the region were in solar energy, the South-east Asia's Green Economy 2025 report found.

Could Singapore sit at the 'core' of new energy grids in Southeast Asia?

Singapore could sit at the "core" of new regional electricity grids in Southeast Asia, with proposed interconnections to neighbouring countries set to bring 25GW of new renewable power and energy storage projects online. This is according to Rystad Energy, which published a report into Singapore's role in the Southeast Asian energy mix this week.

What are South-East Asia's green investments in 2024?

More than 30 per cent of 2024's green investments in the region were in solar energy, the South-east Asia's Green Economy 2025 report found. These included solar and battery energy storage facilities, as well as manufacturing plants for solar cells and panels.
