East Timor solar Power Generation System

ESS

Overview

Who is responsible for the electricity sector in East Timor-Leste?

Since 2002, the Government of Timor-Leste has been responsible for the administration of the electricity sector in East Timor-Leste. Responsibility was transferred from the East Timor Transitional Administration (ETTA) in August 2001. Four main laws have shaped the development of the electricity sector since 1999.

What is East Timor electrification masterplan 2025?

The overall objective of this project is to develop, for the Government of East Timor, the Electrification Masterplan 2025 of East Timor based on Renewables Energies. The East Timor Renewable Energy Electrification Plan consists on the thorough analysis of wind, solar and hydro resources (including wind measurement stations installation).

Which power stations are in East Timor?

The following lists power stations in East Timor . The Hera power station was built to supply to the North coast of the country, while the Betano power station supplies electricity to the South coast and the Inur Sakato thermal power station provides electricity to the Oecusse District.

Who bids for solar IPP project in Timor-Leste?

For Timor-Leste, bidders are typically from legacy countries such as Indonesia, Portugal and People's Republic of China. For the Solar IPP project, Government of Timor-Leste represented by the Ministry of Finance has provided backstop guarantee for EDTL obligations under the Implementation Agreement.
