# **Emergency Command Solar Containerized Waterproof Generator**

## Overview

---

How do you use a solar generator for emergency preparedness?

To use a solar generator for emergency preparedness, place your solar generator near your living quarters so that you can plug everything in and from there, plug your solar panels in and place them in the sun. This makes solar generators popular for their ease of use and "plug-and-play" capabilities.

Should you invest in solar generators for emergency situations?

The article encourages investing in solar generators for preparedness in emergency situations. It suggests the EcoFlow Delta as a superior alternative to the Patriot Power Generator. So, if you're worried about being left in the dark during power outages, consider getting a solar generator.

Which solar generator is recommended over the Patriot Power Generator?

The article advises against the Patriot Power Generator, suggesting the EcoFlow Delta as a superior alternative. In conclusion, the article encourages investing in solar generators for preparedness in emergency situations.

Which solar generator is recommended?

The EcoFlow Delta Quad Kit is particularly recommended for emergency preparedness and disasters. It comes with four 100-watt solar panels and can power various household devices.
