

**EQACC SOLAR**

# **Energy storage cabinet with solar charging version**

## Overview

---

What is a commercial solar battery storage system?

The commercial solar battery storage system is loaded with cell modules, PCS, photovoltaic controller (MPPT) (optional), EMS management system, fire protection system, temperature control system and monitoring system. The system configuration is modular, support multi-machine parallel, plug and play, easy to install and maintenance.

What is a rack-mounted modular PCs?

Configured with a rack-mounted modular PCS, it supports parallel connection of multiple machines and has good scalability; the number of PCS modules and the total battery power can be selected according to the solar energy thermal storage system capacity requirements of microgrid and other scenarios.

What is ece one-stop outdoor energy storage system?

ECE One-stop outdoor energy storage system is a beautifully designed turnkey solution for energy storage system. The commercial solar battery storage system is loaded with cell modules, PCS, photovoltaic controller (MPPT) (optional), EMS management system, fire protection system, temperature control system and monitoring system.
