

EQACC SOLAR

Energy storage equipment installed

Overview

What is a residential energy storage system?

Our residential energy storage systems allow homeowners to store the energy produced by their solar panels during the day and use it at night or during periods of low sunlight. With our energy storage systems, residents can reduce their dependence on the grid and enjoy greater energy independence.

What is new energy storage?

New energy storage refers to energy-storage technologies other than conventional pump storage. An energy-storage system charges when wind power or photovoltaic power generates a large volume of electricity or when the power consumption is low, and it discharges otherwise. China's operational efficiency of new energy storage continues to improve.

What types of energy storage solutions do you offer?

We offer commercial and industrial energy storage system solutions. Our air-cooling and liquid-cooling ess cabinets are safe, all-in-one solutions that are easy to maintain. Designed to meet a variety of energy storage needs, click to learn more about how our energy storage solutions can benefit your business.

What is battery energy storage?

What is Battery Energy Storage ?

Battery energy storage is an advanced technology that enables the capture and release of energy stored in batteries. This can be done to support the grid, provide backup power, or even store energy generated by renewable resources like solar and wind.

Our Group

For more than 60 years, Shanghai Electric Power Generation Group has been fully dedicated to improving energy production efficiency of thermal, nuclear, wind, and solar energy, which has ...

TU Energy Storage Technology (Shanghai) ...

TU Energy Storage Technology (Shanghai) Co., Ltd., established in 2017, is a high-tech enterprise specializing in the design, development, ...

China's new energy storage capacity exceeds 70 million KW

China's new energy storage sector has seen a rapid growth in 2024, with installed capacity surpassing 70 million kilowatts, said an official with the National Energy ...

TU Energy Storage Technology (Shanghai) Co., Ltd

TU Energy Storage Technology (Shanghai) Co., Ltd., established in 2017, is a high-tech enterprise specializing in the design, development, production, sales, and service of energy ...

Year-End Review 2025 , Chen Haisheng: China's New-Type Energy Storage

China's nationwide installed capacity of new-type energy storage has exceeded 100 GW, more than 30 times the level at the end of the 13th Five-Year Plan period.

Installed Capacity Reaches 168 GWh with 130% Growth: ...

According to Official Amount @sjchuneng, on January 23, the National Energy Administration (NEA) held a press conference where Bian Guangqi, Deputy Director of the ...

Rise of energy storage power stations creates "green-collar" ...

A newly commissioned energy storage power station is located in the vicinity of these cold storage facilities. It belongs to

the first industrial and commercial energy storage ...

Our Group

For more than 60 years, Shanghai Electric Power Generation Group has been fully dedicated to improving energy production efficiency of thermal, ...

Leading Energy Storage System Integrator

Shanghai Gogreen Energy Co., Ltd. specializes in lithium-ion energy storage integration and offers comprehensive one-stop integrated services, including product sourcing, ...

Investment in China's Independent Energy Storage Sector ...

The new policy has fully unlocked the value of independent energy storage as a power system regulator, an executive from a major energy storage equipment

manufacturer in ...

New Energy Storage Technologies Empower Energy ...

KPMG China and the Electric Transportation & Energy Storage Association of the China Electricity Council ('CEC') released the New Energy Storage Technologies Empower ...

HyperStrong Retains Top Three Position in S& P Global Energy Storage

S& P Global Energy has recently released its latest 2025 Battery Energy Storage System (BESS) Integrator Report, once again ranking HyperStrong among the top three global ...
