# **Energy storage equipment renovation project in Lyon France**

## Overview

---

How big is France's energy storage capacity?

Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. France had 90MW of capacity in 2022 and this is expected to rise to 359MW by 2030. Listed below are the five largest energy storage projects by capacity in France, according to GlobalData's power database.

What is Ringo Project-Vingeanne - battery energy storage system?

The RINGO Project-Vingeanne - Battery Energy Storage System is a 12,000kW lithium-ion battery energy storage project located in Vingeanne site, France. The rated storage capacity of the project is 37,000kWh. The electro-chemical battery storage project uses lithium-ion battery storage technology.

How much energy storage capacity does France have in 2022?

France had 90MW of capacity in 2022 and this is expected to rise to 359MW by 2030. Listed below are the five largest energy storage projects by capacity in France, according to GlobalData's power database. GlobalData uses proprietary data and analytics to provide a complete picture of the global energy storage segment.

What is the energy storage industry?

Energy Storage forms part of the Energy industry, which is the 14th most popular industry and market group. If you're interested in the Energy market, also check out the top Energy & Cleantech, Renewable Energy, Recycling, Oil & Gas or Energy Efficiency companies. All-in-one AI-powered energy solution for reliable operations
