# **European Solar PV Modules**

## Overview

---

What is the Europe solar PV module market size?

The Europe solar pv module market size was calculated to be USD 62.12 billion in 2024 and is anticipated to be worth USD 110.79 billion by 2033 from USD 66.24 billion in 2025, growing at a CAGR of 6.64% during the forecast period.

Which country has the most solar PV modules in Europe?

Germany was the top performer in the Europe solar PV module market with a share of 30.2% in 2024 owing to the underpinned by its robust manufacturing base and extensive investments in renewable energy. The country's utility-scale sector, which grew by 10% in 2022, drives demand for advanced solar technologies.

Which segment dominated the Europe solar PV module market in 2024?

The monocrystalline segment dominated the Europe solar PV module market by accounting for 60.3% of share in 2024. Its prominence is driven by its superior efficiency and longevity by ensuring optimal performance.

Which countries are a leader in the European solar PV module market?

Germany, Spain, Italy, France, the Netherlands, and the UK are among the top countries due to strong policies and investments in solar energy. 3. Who are the key players in the Europe solar PV module market?

Major players include Hanwha Q CELLS, REC Group, Meyer Burger, SMA Solar Technology, JinkoSolar, JA Solar, Trina Solar, and LONGi Solar. 4.

## European Solar PV Modules
