# **European Super Smart Capacitor Factory**

## Overview

---

What is the largest supercapacitor factory in Europe?

Our ISO 9001- and 14001-certified Dresden Superfactory in Germany is the largest supercapacitor factory in Europe. Our upcoming production facility for graphene-based supercapacitors, the Leipzig Superfactory, will be the largest and most modern supercapacitor factory globally.

Who makes a supercapacitor?

Sign up for the Daily Brief, Silicon Republic's digest of essential sci-tech news. The €220m supercapacitor factory by Estonia's Skeleton will be designed by Siemens and produce up to 12m cells a year.

Who makes Supertech capacitors?

In 2013, Supertech cooperated with UK-based DNM to develop and produce its patented wide-frequency capacitors for advanced audio amplifiers, medical instruments, and power supplies.

What is the Leipzig superfactory?

Our upcoming production facility for graphene-based supercapacitors, the Leipzig Superfactory, will be the largest and most modern supercapacitor factory globally. We have raised more than 300 million euros of capital to scale up development and production of Curved Graphene-based energy storage technologies. to electrify the world!

## European Super Smart Capacitor Factory

---

### Skeleton to Build the World's Largest Supercapacitor Factory

Skeleton invests 220 M EUR in Leipzig area, Germany to build the world's largest supercapacitor factory in partnership with Siemens. Skeleton Technologies and Siemens are ...

---

### New supercapacitor factory opened near Leipzig

The German-Estonian company Skeleton Technologies has opened a new factory for supercapacitors in Markranstädt near Leipzig. Around twelve million cells are to be ...

### Skeleton opens Europe's largest supercapacitor factory in ...

The factory will manufacture the company's supercapacitors, which make use of a patented Curved Graphene material - a novel, synthetic carbide-based material that enhances ...

---

### Skeleton to build Europe's largest ...

The factory in Markranstaedt, which will be Europe's largest, will produce 12M cells per year, with 8M being smaller cells for passenger ...

## Skeleton Technologies Opens New SuperFactory in Germany

This new milestone demonstrates Europe's ability to scale breakthrough technologies with global impact. Skeleton is the only fully integrated European company in ...

## Europe's largest supercapacitor factory to be ...

The EUR220m supercapacitor factory by Estonia's Skeleton will be designed by Siemens and produce up to 12m cells a year.

## Skeleton Opens EUR220M Supercapacitor Leipzig Factory

Explore the new Supercapacitor Factory in Leipzig by Skeleton Technologies, a milestone for European energy solutions.

**Leader in high power  
supercapacitors and batteries ,  
Skeleton**

Our ISO 9001- and 14001-certified Dresden Superfactory in Germany is the largest supercapacitor factory in Europe. Our upcoming production facility for graphene-based ...

**Skeleton to Build the World's  
Largest ...**

Skeleton invests 220 M EUR in Leipzig area, Germany to build the world's largest supercapacitor factory in partnership with Siemens. ...

---

**Skeleton Opens EUR220M  
SuperFactory to Stabilize Europe's  
Grid**

Skeleton's EUR220M SuperFactory in Leipzig produces lithium-free

supercapacitors at scale to stabilize European grids and support AI data centers.

### **Europe's largest supercapacitor factory to be built in Germany**

The EUR220m supercapacitor factory by Estonia's Skeleton will be designed by Siemens and produce up to 12m cells a year.

### **New supercapacitor factory opened near Leipzig**

The German-Estonian company Skeleton Technologies has opened a new factory for supercapacitors in Markranstädt near

### **Estonian company opens nearly quarter-billion-euro ...**

The Estonian company Skeleton has opened a EUR220 million supercapacitor factory in Leipzig to support artificial intelligence data centers and stabilize

Europe's power grids.

114KWh ESS

### **Skeleton to build Europe's largest supercapacitor factory ...**

The factory in Markranstaedt, which will be Europe's largest, will produce 12M cells per year, with 8M being smaller cells for passenger vehicles and 4M being larger cells for ...
