Financing Scheme for a 50kW Energy Storage Container in Bucharest

Overview

Romania has launched a new non-refundable funding program for battery energy storage systems to the tune of EUR 150 million (\$158 million), this time dedicated to standalone facilities. How much is a self-consumption solar and storage project worth?

Minister of Energy Sebastian Burduja signing 24 financing contracts for self-consumption solar and storage projects, worth nearly €14 million. Image: Ministry of Energy. A 204MW battery energy storage system (BESS) project in Romania can progress after the government said it did not need to go through an environmental impact assessment (EIA).

What is Romania's energy storage requirement?

Minister of Energy Sebastian Burduja reportedly declared at a conference that Romania's storage requirement is 4,000MWh, and that half would be covered by BESS and half by pumped hydro energy storage (PHES) technology.

Will a government fund energy storage at wind & solar PV plants?

According to local reports, the government plans to allocate funding from the Modernisation Fund to support the deployment of energy storage at wind and solar PV plants covering 25% of the plants' output capacity.
