Garden solar lighting

Overview

What are solar garden lights?

Solar garden lights are available in various colors and designs to enhance your outdoor area. You can pick stake lights for borders, string lights for the fence, or a charming lantern for the table. In addition to creating a pleasant atmosphere for entertaining, some designs serve a practical purpose by enhancing the security around your home.

Are solar lights good for your garden?

Solar lights are environmentally friendly lighting and with a good set, you can create an ambience that lets you enjoy your garden long after dark. Powered by solar panels, they absorb daylight and convert it to electrical energy, charging your lights so they're ready to go at night.

Should you use solar lights with garden furniture?

Pairing these lights with the best garden furniture can help you create the perfect outdoor retreat. Unlike mains-connected lights, solar designs are cheaper and simpler to install, and because they're powered by the sun these eco-friendly lights will save you money on your energy bills.

How We Tested Solar Lights
We tested a variety of solar lights, putting them through their paces in a range of urban, suburban and rural gardens across the country. They were subjected to changing weather and hours of daylight for over six months. They were then assessed according to the following criteria with equal marks attributed to each: 1. Set Up. Assessed the clarity o See more on gardenersworld Which?
