

EQACC SOLAR

Generator assembly container manufacturer

Overview

What is a containerized generator enclosure?

Our containerized generator enclosures are built to be highly mobile, allowing you to easily transport and relocate your generator equipment as needed. The modular design enables quick assembly and disassembly, making it an excellent choice for temporary power needs or projects requiring frequent relocation.

What is a forx container type diesel generator set?

FORX container type diesel generator set uses advanced sound-absorbing material, through scientific design and the advanced technology in the field of acoustics, airflow to achieve the goal that reduces the noise.

What is a self-contained generator enclosure?

It utilizes shipping containers or modular structures to create a self-contained environment for generators of various sizes. These enclosures are specifically engineered to provide flexibility, mobility, and durability while ensuring the safe and efficient operation of generator systems.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Generator assembly container manufacturer

Company Overview

Goldlink Power Co., Ltd. was established in 2009, covering an area of 40,000 square meters and having 105 employees. As a leading enterprise in the diesel generator industry for 16 years, ...
