# Generators of the Brussels solar power plant

## Overview

---

How many people use solar panels in Brussels?

The total capacity generated in Brussels by solar panels corresponds to the annual electricity consumption of more than 110,000 households in the region.

Can solar panels be installed in Brussels?

The capacity of solar panels in Brussels has skyrocketed since support measures have spurred more people, and businesses, to install the technology. Across the capital, there are numerous solar panel installations on the roofs of homes and large businesses.

How many solar installations are there in Belgium?

In 2019, Belgium's production park consisted of 4.8 GW of PV solar installations and 3.8 GW of (onshore and offshore) wind installations. A large part of PV solar capacity comes from small to medium-sized rooftop-mounted installations, but large-scale and ground-mounted PV installations have recently gained traction.

How many power plants are there in Belgium?

☐ Stats ☐ Belgium ☐ Power Plants All 134 power plants in Belgium  
Name English Name Operator Output Source Method Wikidata Centrale  
nucléaire de Tihange Tihange Nuclear Power Station Engie Electrabel 3,008  
MW nuclear fission Q1739481 Coe - Trois-Ponts 1,164 MW hydro water-  
pumped-storage Q1639208 Centrale TGV Seraing
