

## **EQACC SOLAR**

# **Germany outdoor communication battery cabinet authorized integration system**

## Overview

---

Why do you need an outdoor Battery Cabinet?

The cabinet is designed specifically to protect it from human damage, water, dust and other damages. Climate controlled products such as air conditioners, heat exchanger, or TEC coolers are installed on outdoor battery cabinet for keeping a stable temperature inside cabinet so as to increase service life and stability of battery.

What is a self-designed battery management system (BMS)?

Self-designed Battery Management System (BMS) protects the cell from extreme temperatures. Modular, sleek design allows neat stacking inside the AZE company solar equipment enclosures. Compatible with most of there hybrid inverters available on the market.

What are solar battery equipment cabinets?

The solar battery equipment cabinets are made specifically for the solar industry with an aim to make installations safer and easier for consumers. Tailored to fit your specific needs, available in different heights and depths. Different materials options: Metal steel, aluminum or stainless steel.

What is a medium series battery energy storage system?

The medium series battery energy storage system is designed with versatility and scalability in mind. Featuring MPPT technology and leading-edge conversion equipment, these BESS systems are built to stand out thanks to their longevity, reliability, and customisability.
