

**EQACC SOLAR**

# **Government Procurement of Solar Containerized Campsites**

## Overview

---

What is a tender for containerised solar mini-grids for UN web buy PLUS?

RETENDER - Establishment of Long Term Agreements for the Supply of Containerised Solar Mini-Grids for UN Web Buy Plus Invitation to bid This tender is for the supply of Containerised Solar Mini-Grids for UN Web Buy Plus for multiple destinations worldwide.

Can PV plus storage be deployed cost-effectively at grid-connected sites?

Considerations for Implementing PV Plus Storage Systems at Federal Buildings and Campuses – Recent declines in lithium-ion battery costs, along with changes in net metering policies and utility rate structures, have provided opportunities for PV plus storage to be deployed cost-effectively at grid-connected sites.

Who is responsible for keeping solar PV guidelines up-to-date?

It is the responsibility of agency managers to determine which guidelines (and which versions) apply. Agency contract officers, attorneys, and engineers are responsible for determining the final content of any solicitation. Updated to the regulations, codes, and standards applicable to solar PV are changing frequently.

What is a solar power purchase agreement (PPA)?

A solar power purchase agreement (PPA) is a financial contract in which a third-party developer owns, operates, and maintains the photovoltaic system, and a customer agrees to purchase the system's electric output from the solar services provider for an agreed-upon price and for a predetermined period.
