

EQACC SOLAR

Greek Microinverter Company

Overview

Who makes micro inverters?

Enphase, the pioneer of the micro inverter concept, is a globally leading manufacturer as well as supplier of micro inverters. They rank among TIER-1 companies. They are also known for revolutionizing power generation on a global scale. Mr. Raghu Belur and Mr. Martin Fornage established the brand jointly in 2006 in California (USA).

What is a solar microinverter?

Solar microinverters refer to electronic devices used in photovoltaics to convert the direct current (DC) generated by solar panels into alternating current (AC). They function in a parallel circuit and can separate power output from each panel while converting it into grid voltage.

What is the global solar microinverter market value?

The global solar microinverter market reached a value of US\$ 231 Million in 2021. Solar microinverters refer to electronic devices used in photovoltaics to convert the direct current (DC) generated by solar panels into alternating current (AC).

What is a RS485 microinverter?

The microinverter integrated with RS485 and a Data Transfer Unit (DTU) constitutes a solar system solution tailored for commercial and industrial rooftop applications.
