Greek solar container lithium battery energy storage project construction

Overview

Public Power Corp. (PPC Group) is launching construction on two battery energy storage systems (BESS) in northern Greece, of 48 MW / 96 MWh and 50 MW / 100 MWh. How many mw subsidized battery storage in Greece?

[Home](#) » [News](#) » [Renewables](#) » Greece awards 188.9 MW for subsidized battery storage in final auction Greece's third energy storage auction has been completed, with nine projects selected and a capacity of 188.9 MW.

What is the containerized lithium battery energy storage system?

The containerized lithium battery energy storage system is based on a 40-foot standard container, and the lithium iron phosphate battery system, PCS, BMS, EMS, air conditioning system, fire protection system, power distribution system, etc. are gathered in a special box to achieve high integration.

What is Greece's third energy storage auction?

Greece's third energy storage auction has been completed with nine projects selected. It was the final auction where the state provides subsidies to build battery energy storage systems (BESS). A total of almost 800 MW in capability has been awarded through all three storage auctions.

Which energy plants will be installed in Greece?

The rest of the list comprises Amber Energy (18 MW), Plain Solar (7.9 MW), Enercoplan (25 MW), Arkadia Storage (10 MW), Heliothema (10 MW) and Ardassa Energy (18 MW). The facilities will be installed in the Western Macedonia region in northern Greece and in the municipalities of Megalopolis, Tripoli, Gortynia and Oichalia in the Peloponnese region.
