# **Has Sanwei Communication made 5G micro base stations**

## Overview

---

How big is the 5G base station market?

Macro cells represented USD 22.9 billion and 61.3% of the 2024 5G base station market share, providing umbrella coverage and mobility anchor services. Yet small cells are forecast to expand at a 29.4% CAGR, pushing their slice of the 5G base station market size toward USD 50 billion by 2030.

Will China build a 5G base station next year?

Technicians from China Mobile check a 5G base station in Tongling, Anhui province. [Photo by Guo Shining/For China Daily] China aims to build over 4.5 million 5G base stations next year and give more policy as well as financial support to foster industries that can define the next decade, the country's top industry regulator said on Friday.

Which 5G base station market dominated the global market in 2023?

The Asia Pacific 5G base station market dominated the global market in 2023 and accounted for 32.67% of the revenue share.

Why do we need a 5G base station?

As the number of IoT devices continues to grow, particularly in sectors such as healthcare, agriculture, transportation, and manufacturing, there is an increasing need for a robust and expansive 5G network. This demand is driving the installation of more 5G base stations to ensure that IoT systems can operate efficiently and reliably.
