## Overview

---

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

Are mobile solar containers a good choice for a remote home?

Mobile solar containers have excellent mobility and are particularly suitable for use in rural or remote areas with limited electricity usage. Off-grid solar power systems are a popular choice for remote homes as they provide a reliable source of electricity without being tethered to the grid.

Does a mobile solar container work with a lithium battery storage container?

The mobile solar container is designed to work seamlessly with lithium battery storage containers, allowing for efficient energy storage and use. This compatibility makes storing solar power easier when sunlight is unavailable. Lifespan is over 10 years old with reliable materials.

What is a solar container?

Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work. Because of their construction, our containers offer unmatched flexibility and mobility.
