

EQACC SOLAR

High power solar panel circulating water pump with battery

Overview

What is a solar powered water pump?

A solar powered water pump is an eco-friendly, off-grid solution that uses solar energy to move water from wells, rivers, ponds, or tanks—without needing electricity or fuel. Perfect for farms, homes, and remote areas, these pumps are powered by photovoltaic panels and come in both surface and submersible options.

What is a solar water pump kit?

The Solariver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

Who makes good solar fountain pump kits?

Silicon Solar manufactures industry-leading solar fountain pump kits. The AquaJet 24V Custom Solar Fountain High-Powered Pump Kit is built with the highest quality, commercial-grade parts and components with water sealed connections. The AquaJet Custom series is among the largest solar water pump kits we offer.
