

EQACC SOLAR

High-temperature resistant mobile energy storage container for construction sites in Costa Rica

Overview

How can shipping containers help your construction sites?

Optimize your construction sites! Discover how strong and flexible shipping containers meet your secure storage, transportation and modular office needs. Our shipping containers offer a tailored response to your needs for secure storage, transport and layout with shelves for storing your tools, a site service station and modular offices.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO4) combined with an intelligent 3-level battery management system (BMS);.

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

High-temperature resistant mobile energy storage container for construction site

Construction Site Container

Construction site or construction container is a modular container that is resistant to harsh conditions in various construction sites and offer ...
