Hot sale arc flash switchgear for sale for sale

Overview

Do you need a arc flash protective suit for electrical switching?

Electrical switching where transformer oil is a potential safety hazard must employ two workers for the task, working in a buddy system. The switching worker inside the arc flash protective boundary must be clothed in this Survive-ARC® Hot Oil Arc Flash Protective Suit.

What is a 40 calorie arc flash suit?

40 calorie durable light-weight arc flash suits are great for workers that need extra mobility and comfort from their suits. This kit includes arc rated clothing and other safety equipment needed to provide full body protection. 43 cal HRC 4 arc flash kit for high voltage work. Comes with all the required clothing and gear.

What is arc flash clothing?

Arc flash clothing is intended to provide protection from the thermal effects of arc flash and this product must be used as part of an appropriate set of PPC and PPE to protect against the hazards of arc flash. This product complies with standards that are intended to protect against arc flash in most situations that arise during normal use.

What happens if an arc flash occurs?

In the event of an electric arc flash, the buddy worker must as soon as possible, but within 10 seconds, extinguish any flames that might be on the arc flash suit of the worker that has performed. SURVIVE-ARC® Switching Suit is intended to provide protection from the thermal effects of arc flash.
