Is Russia a good place to install solar panels?

Russia is one of the top countries in terms of renewable energy production. It is one of the top producers in the EU and the rest of the world. Therefore, there is a wide array of equipment suppliers and distributors in and out of Russia for those looking to make solar installations.

Where to invest in solar power equipment?

For those looking to invest in solar power equipment, Russia is home to a vast logistics industry and they have several major seaports. The major seaports in Russia are Saint Petersburg, Vladivostok, Novorossiysk, Kaliningrad, Sosnogorsk, Privolzhsky, Pavlovsk, and Pyatigorsk. The aforementioned are some of the busiest ports in Russia and in Europe.

What is a solar inverter?

A solar inverter, also known as a PV inverter, is a type of electrical converter that converts the variable direct current (DC) output of a photovoltaic (PV) solar panel into a utility frequency alternating current (AC) that can be fed into a commercial electrical grid or used by a local, off-grid electrical network.
